- Development Projects
- Maintenance Projects
- Support Projects
- Complete industrial network solution

Application:

- Hotels
- Hospitals
- Schools
- Trading Companies
- Government Offices
- Resorts etc..

Security Systems:

Based on the requirement any types of wireless or wire cameras can be supplied for industrial usage, construction industry, defense, educational institutions.

Application:

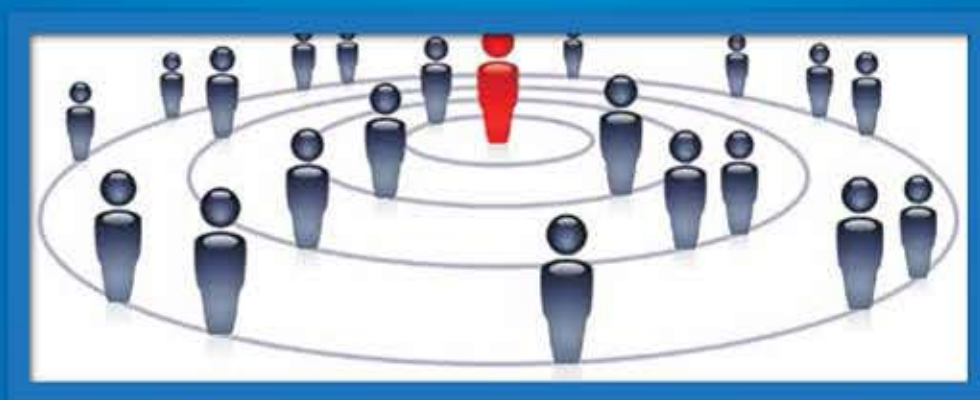

- Defense Buildings
- Banking Services
- Oil and Gas Plants
- Power Plants
- Water Treatment Plants.

PC Systems:

We can supply any type of configuration based on customer requirement to any kind of industry.

Application :

- Any industry less man power and more technology is required.
- Spares parts supply for different industries.

Our View and Our History

AMACO Founded in 2002, is one of the leading industrial supply and Solutions Company providing value based support to the industries. Head office in Jubail and having offices at other major cities of Saudi Arabia. AMACO has offices in the United Arab Emirates, United Kingdom (UK) and in India. As a group AMACO has the competence and capability to integrate all products, systems and services.

The key focus areas of AMACO for Contracting are Electrical, Mechanical and Civil projects.

Responding to growing business needs, AMACO has diversified its business activities in several sectors of services inclusive of power and Industrial maintenance & construction projects.

AMACO is successfully operating as an efficient, experienced, well organized and most reputable contracting company in Saudi Arabia and ready to help all its clients meet the challenges of the future.

Our View and Our Mission

AMACO vision is to be viewed as the finest Group of company in Region & Our Mission is to satisfy our customers by delivering results through quality products and services. Our desire to grow drives our passion to win in the marketplace. With a unified, low-cost operating structure, we'll remain competitive across every business and in every geographic region.

Our Ethics

AMACO believes that should form the basis for all of our relationships with employees, customers, partners, competitors, and suppliers. We strive to live and abide by basic ethical principles in the day-to-day conduct of our business, foster an environment of mutual trust and respect, and take responsibility for our own actions and conduct.

These Principles Include:

- Promoting a workplace that is respectful of personal differences and free of workplace discrimination and harassment.
- Conducting ourselves in a professional manner consistent with our core values and mission.
- Not engaging in any activity that is, or may be perceived as, a conflict of interest.
- Observing the laws and customs of all nations.

Energy

AMACO energies FZE trades in petrochemicals, industrial products, Laboratory Equipment, and heavy equipment. AMACO energies FZE located in RAK FZE-UAE, and it's headquartered in Saudi Arabia.

AMACO energies FZE trades in aromatics, methanol, Sn- 500, Pygas and Pyrolysis oil & Heavy Pyrolysis oil worldwide.

Products

Petrochemicals are merchandised and traded by AMACO energies FZE . AMACO energies FZE was founded in 2002 to trade and merchandise Petrochemicals worldwide. AMACO energies FZE is a global trading network whose primary objective is to provide timely and efficient execution of all its customers' needs . AMACO energies FZE is a leading trader of MTBE, Benzene, Methanol and Olefins worldwide. It is a service oriented company where the customers receive full benefit of its international marketing expertise. AMACO energies have earned the reputation for reliable performance and first class value added service.

Benzene	Methanol	Olefins
Styrene Monomer	Toluene	Ethanol

Annual traded volume in 2010 was 1.1 million tons. Other chemicals are traded on a specialized basis.

Chock fast Foundation Systems

CHOCKFAST Red is a three-component, high strength, 100% solids, epoxy grouting compound used to grout large machinery and to support soleplates in all type of foundations. CHOCKFAST Red is a product of ITW Polymer Technologies U.S.A which specializes in the manufacture of epoxy grouts, coatings and repair compounds utilized by industrial customers worldwide. For over 45 years ITW industrial equipment grouts have proven to be the ideal choice for a wide array of machinery grouting applications in a host of industries.

Chemical Solutions

Chockfast Red has an extremely high compressive strength. This along with negligible shrinkage makes it ideal for installing critically aligned machinery within very close tolerances. Chockfast Red has earned an unmatched reputation for reliability with major gas pipelines, chemical, petrochemical and refining complexes; power facilities; mining operations; manufacturing; engineering and design organizations; and industrial constructors worldwide. Epoxy Grouts enhance performance on a wide range of machinery & equipment like Pumps, Steam & Gas Turbines, Compressors, and Generators etc.

Elite Chemical Solution is also into trading of commodity chemicals. As a well established supplier, we have a significant number of longstanding, exclusive agreements with major world producers. This enables us to bring you the very best quality products, coupled with exceptionally high levels of service.

Parson Adhesives

Parson Adhesives is a research based adhesive manufacturer of USA with wide range of products suitable for every industry. Over 100 types of adhesives reflect the universal product range suitable for the industrial manufacturer, the engineer, the craftsman and the consumer. As a sole distributor, Elite chemicals always keep this material in our stock.
